

# CERTIFYING INLAND VESSELS WITHIN THE 1.5 M SOCIETY

The Corona crisis has caused a great deal and led to unprecedented measures. We will also have to adapt within inland navigation because of the 1.5 m society. NBKB will continue to carry out the certification inspections. In order to be able to do this responsibly in accordance with RIVM health and safety guidelines, here are a number of tips and procedures:

## Owner / skipper

Wash hands regularly / use disinfectant

Use paper handkerchiefs

Cough / sneeze in the elbow

Clean surfaces regularly

Keep 1.5 m distance (also in small spaces)

Ventileer regelmatig

Inform inspector when feeling ill

Use ownly your own pen

Be careful with coffee makers for general use

Provide visible routing: (SB front, PS aft)

## Inspector

Have contact in advance about the 1.5 m measures

Act according to the RIVM health- and safety guidelines

Use only your own pen

Disinfect hands before and after on-board inspections

Also keep distance during other activities (trails, noise measurements.....)

Limit visits on board. (Check repairs by email, photos and invoices)

If any questions? You can contact us by mailing to: [general@nbkb.nl](mailto:general@nbkb.nl)

**Together we can ensure inland navigation to be certified in time AND kept in service safely.**
